

EVIDEN
an atos business

Solution for Business Transformation for Mid Market

Metamorphosing Digital Enterprise into an Intelligent Enterprise with EVIDEN Advanced Preconfigured Solutions

As clients move to Digital Transformation for unleashing their next phase of growth, organisations are realizing that the growth strategies will need to be enabled by an intelligent and integrated platform. It is important for organisations to focus on time to market for such platforms in this competitive world. Hence agile and cloud based preconfigured solutions are the need of the hour which can be rapidly deployed and scaled across geographies.

Top growth strategies helping companies succeed

- New business models/services (e.g., subscriptions, direct to consumer, marketplace, everything as a service)
- New channels/touchpoints (e.g., mobile app, social commerce, conversational AI)
- New delivery options (e.g., same day delivery, curbside pickup)
- Improve supply chain reliability
- Accelerate go-to-market
- Personalized offers
- Eco-friendly shipping
- Increase supply chain responsiveness

Highlight the need to have **agile cloud-based** platforms with integrated and **intelligent capabilities**

Advanced Preconfigured Solutions (APS) based on SAP best practices & Leading Industry practices along with EVIDEN methodology and tools supports you to do the same with focus on:

- Accelerated end-to-end business transformation
- Enhanced industry operations through best practices
- Driving digital innovation in your business
- Consistent and predictable delivery

Digital end-to-end processes

More competitiveness through accelerated and efficient S/4 HANA implementation
